CHCS II

CIO VTC

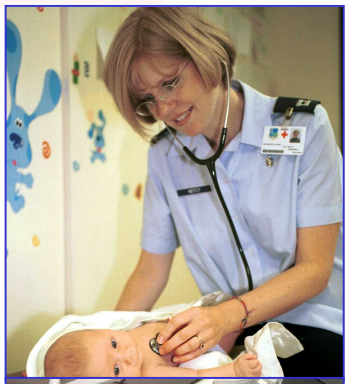
28 Apr 04

Status of CHCS II

- **Completed Limited Deployment**
  - Navy: Naval Medical Center Portsmouth (selected clinics)
  - Air Force: Tinker Air Force Base and Goodfellow
  - Army: Ft Eustis and Ft Bliss

- **Vice Chief, ASD (HA) and SG's directed world wide deployment**
  - Currently being implemented at
    - NMC Portsmouth
    - NH Camp Lejeune
    - NH Bremerton
    - NH Oak Harbor
    - NH Cherry Point

Impact: Clinical Value



- Population health
- Problem list
- Consult tracking
- Wellness reminders
- Order sets
- Vitals
- Screening services

- Patient health history with encounter coding
- Universal retrieval of electronic medical records
- Graphical user interface for encounter documentation
- Alerts & reminders
- Immunization tracking
- Patient lists

Impact: Business Value

To exceed Dr. Winkenwerder's coding accuracy standards by:

- Improving data quality and coding compliance rates
- Increasing Relative Value Units (RVU's) - leading to Defense Health Program (DHP) resources allocations
- 100% availability of electronic medical record
- Support of outpatient itemized billing

What Happens if Nothing is Done?

- Liability in clinical quality (missing patient records)
- Reduction in accrual funds
- Incomplete patient counts for Next Generation of TRICARE Contracts
- Under-reporting for Output Driven Resource Allocation (ODRA)
- Missed third party collections
